+1 800-3-DATAIO

Data I/O is the trusted programming equipment supplier to the medical electronics industry. Our customers produce both FDA Class I and Class II devices including ventilators, diagnostic equipment and other medical devices. Their operations offer certifications in ISO 9001, ISO 14001, ISO 13485, FDA Registration, UL®, CSA®, RoHS, and WEEE Regulatory and Compliance Labeling. Data I/O has been qualified to meet these rigorous quality and traceability requirements.

Data I/O's programming solutions deliver the fastest performance and highest quality production yield. With Data I/O technology, you can reconfigure existing programming equipment in minutes to support new medical demand.

Why Data I/O

The trusted supplier for mission critical medical applications for Class I and Class II devices worldwide
- Data I/O's global manufacturing facilities are ISO 9001:2015 certified
- Highest production yield up to 99.8%
- Device level traceability
- Fastest programming performance

Industry's largest library of microcontroller and flash memory device supports

Quickly support your new medical product designs
- Offices in Americas, Asia and Europe provide local engineering, service and sales support
- Programming Systems can be reconfigured in minutes to support new products

Data I/O has the technology and global resources to support your production today.

Data i/O

Redmond, WA | Munich, Germany | Shanghai, China

As an essential business, Data I/O is prepared to safely and quickly support medical customers worldwide

Founded in1972

Nearly 50 years of expertise

NASDAQ: DAIO

Public company with audited & published financials

ISO 9001:2015 Certifications

Redmond, WA & Shanghai, China

Global Service & Support

Over 60 service and support engineers worldwide

Time is of the Essence! Special Programs for Medical Applications

Priority device support gets your products delivered fast! All medical supports are given top priority at no additional charge. Contact your Data I/O sales representative for details.

Priority manufacturing for new systems

Priority service for new system installations, upgrades and service requests.

Technical & Commercial Capabilities

Programming System Capability
- Support for all device media I/O (tape, tray, tube)
- Fiber laser marker
- Integrated self monitoring ionizers
- 3D coplanarity vision system
- Machine-based learning for automated device teach
- Barcode scanning

Device Support Capability
- >150,000 devices supported
- Proprietary HIC sockets deliver highest production yield up to 99.8%
- Billions of devices programmed with Data I/O technology
